35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The UFO went very slow until it made the designs I showed you then it was speeding up very fast and changed colors from a dull star light to a brighter space, then pffff! It disappeared!

It was weird, no plane or helicopter could have done that, especially at night. I mean, stop, then straight down, then over, the up again, like it did. ✓
